Driven and technically skilled Software Engineering (B.Sc), with hands-on experience in programming, networking, and Linux. Strong foundation in Python, Java, C, Bash scripting and OOP. Experienced in client-server architecture and database management. Security clearance: Level 3 (Top Secret) Valid.

Education

2021 – present Software Engineering at Braude College

Final-year Software Engineering student, only final project remaining - open to full-time roles.

- Moshal program member, selected to take part in a unique international program that empowers ambitious and talented undergraduate students with high academic potential.

Projects

Information System Change Management - A semester project.

- Requirements analysis, build UML diagrams design, and a prototype.
- Developed the server-side in Java and integrated with a MySQL database.
- Worked with JDBC to integrate and manage database operations.
- Designed and implemented the client-side interface using JavaFX.
- **Version Control**: Managed code and collaboration using GitHub.

Experience

present - IT Help Desk & Technical Support (Elbit Systems).

- Managing user accounts, permissions, and access rights using **Active Directory** and enterprise management tools.
- Troubleshooting complex technical issues in a multi-disciplinary technological ecosystem.

2016 - 2020 - Technical support instructor (Bezeq Company).

- **Experience**: Four years in technical support within the networking and communications field.
- **Interfaces**: Hands-on work with routers, switches, and network monitoring tools.
- **Knowledge**: In-depth understanding of networking protocols, including TCP/IP, DNS, and DHCP.
- **Mentorship**: Trained and mentored new employees to foster team growth and efficiency.

Skill Highlights

- Python, C, C#, Java, JS, Node JS, React, OOP.
- MySQL, MongoDB, Git, Docker, VirtualBox, REST APIs.
- Debugging and testing tools, Wireshark.

Military Service

Commander at Military Service (Golani).

- Held multiple leadership roles during service
- Took part in 'Zuk Eitan' operation as a commander

Languages

- Hebrew - Native
- English - Full professional proficiency
